

**Model MS-1000 - NON-AMPLIFIED**  
0-25 Mile Range

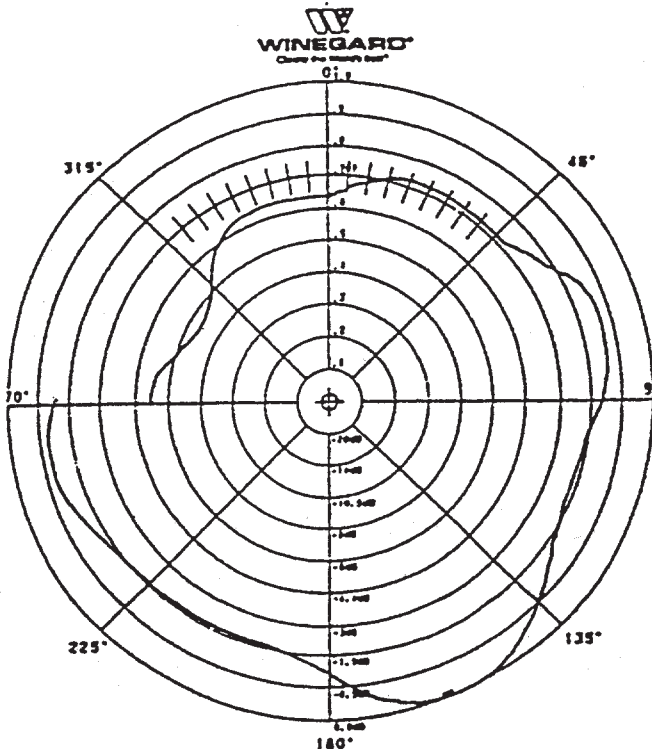

**Model MS-2000 - AMPLIFIED**  
15-35 Mile Range

**CHANNEL 2**

**CHANNEL 9**

**CHANNEL 50**

**ADVANTAGES:**

- A. Small compact design
- B. Easy to install
- C. Aesthetically pleasing
- D. Pick up in all directions

**DISADVANTAGES:**

- A. Omnidirectional susceptible to ghosting (picks up in all directions)
- B. Low gain on channels 2-6
- C. NOT a magical antenna, still requires a good signal
- D. Amplified models will overload if installed too close to stations

**NOTE: MUST ROTATE TO OPTIMIZE SIGNAL ON ALL CHANNELS**
